

Map 12

Western 1826 (Roads and Inhabitants)

Map 12 was constructed to show the traveled path of Danford Keyes. It is a very detailed map showing the path that Danford Keyes rode his horse through the town of Western.

Also shows where Danford Keyes visited, roads, rivers, many businesses and other public locations at the time of Danford Keyes's ride. A record of Danford Keyes ride was published in the Warren Harold newspaper.
