

### **Map 43**

#### **Skeleton Map – Enfield, Massachusetts Center Village – (Under Quabbin Reservoir)**

Map 43 illustrates the Center Village within Enfield, Massachusetts. Today, this Center Village is found beneath 107 feet of water, what we know as the Quabbin Reservoir. This map mainly shows the people that were settled in the area as well as businesses, a railroad, the Mill Complex and Smith Village. Smith Village is shown in greater detail on map 44. These Center Villages were flooded in 1938 and completely obliterated the Commonwealth.
